Sioux Falls Lottery office getting new home

Beginning in March, lottery players won’t be traveling as far down Western Avenue to buy their tickets and claim their prizes at the Sioux Falls Lottery office and validation center. The facility is scheduled to move from its current location at 3824 S. Western Avenue to a new building at 3605 S. Western Avenue around March 1. The Sioux Falls office has been in its current spot since the Lottery began in 1987.

While the present Sioux Falls Lottery office is in a strip mall, at the new location, the Lottery will be sharing a stand-alone building with just one other tenant. The former warehouse is being remodeled on the west side to accommodate the Lottery and the east side of the building will remain a warehouse for a local retailer. Lottery executive director Norm Lingle says the new location will have a bigger lobby area to accommodate players, a better office layout for our staff, and more warehouse space with easier access for deliveries,” said Lingle. The facility will also house a large conference room, a smaller training room and additional office space that can be used by out-of-town Lottery staff when visiting Sioux Falls.

One of the biggest challenges in moving to the new building will be training players and retailers not to go to the old building. To help in that effort, the new office, located in the parking lot of the Western Mall, will have brightly lit signage featuring the Lottery logo on the west and north sides as well as the familiar jackpot sign. The logo will also appear on billboards and mall signage on Western Avenue and 41st Street.

The move to 3605 S. Western Avenue will not affect the hours of operation; the Sioux Falls office and validation center will still be open Monday thru Friday from 8:00 a.m. to 5:00 p.m. although there may be some disruption in the schedule during the actual move. Be watching the Lottery’s website (lottery.sd.gov) and Facebook and Twitter feeds for more information.

While lightning may strike somewhere in the
United States 25 million times a year, it does not strike citizens in the United States as often
as the luck of winning a Powerball or Mega
Millions jackpot does. Over the past three years, there have been 82 winning tickets that have
shared, or won outright, a Powerball or Mega
Millions jackpot. Through the first eight months
of 2015 alone, California, Illinois, Missouri, New
Jersey, New York, Pennsylvania, Tennessee and
Washington have more jackpot winners than
lightning fatalities. Beyond jackpots, more than
1,300 tickets have won at least $1,000,000 on either Powerball or Mega Millions since
2013. For the three similar reporting years, the
National Oceanic and Atmospheric Administration (NOAA) reports 67 lightning
fatalities in the United States where these games
are played. In truth, you have a better chance
of winning a Powerball or Mega
Millions than
lightning fatalities.

5X THE CASH - 539
$2 ticket | $15,000 Top Prize
10X THE CASH - 544
$5 ticket | $50,000 Top Prize
This X-family of games will make their debut in February and are sure
to become fast favorites among loyal players and newcomers alike.
**LOTTO PAPER?**

Q: What do I do when I run out of Lottery paper and can’t find any more in my store?

A: When retailers see a red line on their current roll of Lottery paper, it means they are about to run out so they should call the hot-line at 1-888-473-5688 and order more. Every roll of Lottery paper is assigned to a specific store for security reasons. That means retailers CANNOT borrow paper from another store or use the paper used in their cash registers. Retailers can use the same hot-line to report malfunctioning Lottery equipment.
